

ACE MENTOR INFORMATION NIGHT

Wednesday, July 15, 2009 in Fresno & Thursday, July 16, 2009 in Bakersfield

Will there be enough architects, construction managers and engineers to fill the industry's needs ten years from now? What can you do to help?

Become part of the ACE Mentor Program of Central California. ACE is an acronym for architecture, construction, and engineering. The ACE Mentor Program brings together architects, contractors, trades people and engineers to encourage high school students to pursue careers in our industry. Created to address the growing need for skilled professionals in the industries - a shortage that could become a crisis if current trends continue – ACE is part of a nationwide program of outreach and mentoring for students in 90 markets across the country where ACE has a presence.

ACE's programs rely upon committed, energetic mentor participation. By acting as professional role models, trusted friends and career advisors, mentors make a significant contribution to their communities, while helping to develop the professionals who will lead tomorrow's building industry. In addition, mentoring presents a variety of networking opportunities, as well as chances to sharpen individual presentation and other professional skills.

Join us at either of the following events for more information on how you can make a difference by becoming a mentor.
