

## An In Depth Look at Succession Planning for the Construction Company Owner

Who will run your construction company after you?

What will happen to your estate?

Only two things in life are certain: Death and Taxes - Join us to learn how you can make decisions about these issues ahead of time, and maximize control over your business and estate to benefit your family and company.

Learn about different business planning and estate planning documents, common issues that arise in passing a business on to children or key employees, and an overview of the cost burden of probate where there is no estate planning versus the administration of a living trust.

Maximum results from succession planning, with the best and greatest number of options available for facilitating a transfer, often comes from creating a plan far in advance of retirement.

**Business and estate planning is important for business owners of any age!**

Now is the time to think about transferring ownership,  
and wealth, from one generation to another!

When ...

Friday,

July 10, 2009

9-11:30 am
