

# EPA Lead Renovation, Repair, & Painting (RRP) Initial Certification Course

## *Course Description:*

This 1-day (8-hr) class explains how to comply with EPA's Renovation, Repair, and Painting (RRP) Rule. Subjects covered include: health effects, regulations, lead safe work practices, containment, cleaning & record keeping. After passing the required exam, students receive RRP Certificates the same day. 40 CFR 745.90(a)(1) & 40 CFR Subpart L

**Note:** Failure to comply with the new requirements is a violation of the law: it can cause exposure to lead and result in serious health consequences, especially for young children. Penalties can be significant.

*Course Includes:  
Lead Safety Course  
Book & Certification*

## *Who should take the RRP-Initial (RRP) class:*

Contractors who work in pre-1978 housing or child occupied facility (including schools and day care facilities) and who might disturb painted surfaces while doing plumbing, electrical, drywall, painting, tile, window replacement, landscaping, repairs, construction, renovation, remodeling, HVAC, demolition, plus many, other jobs. The RRP rule applies to people who work for rental property owners, schools, and day care providers as well as non-profits and government agencies. Learn more at:
