Emergency Preparedness & Response Seminar

Building a Safer Industry One Memeber at a time!

Yes, even Construction Companies must prepare for emergencies: it makes sense to be ready for action when needed and to comply with safety requirements. Many bid requests now ask for emergency action plans of the companies that are proposing to complete the project.

TOPICS TO BE COVERED:

- Developing an emergency action plan with an eye towards business continuity
- Types of emergency equipment to consider.
- Methods for fire prevention and suppression.
- How to protect and minimize exposure to human life.
- Containing the situation (spill, gas leak), equipment responders must use.
- Hands on response drill.

Why Should You Attend CCBE's Safety Training Courses?

Boretti, Inc provides **FREE** phone and email support for safety related questions for attendees of their training courses to give you peace of mind and after training support you need to succeed.

Attendees will learn:

How to prepare for emergency events to ensure minimal personnel exposure and survival of the business. Safe, efficient and effective ways to respond to an emergency situation as part of an emergency response team.

**Presented by: Eric Andersen—
Boretti, Inc.**

Eric has a diverse background in the field of environmental, health and safety. Eric has been responsible for the development, implementation, and management of safety programs, policies, and procedures to ensure the company complies with all federal, state and local safety laws. This required Eric to become familiar with all aspects company's concepts, practices, and procedures to achieve their safety goals. Eric is a certified IVES Master trainer, allowing him to provide safety certification training for most pieces of equipment, and an Authorized OSHA Instructor for Construction.
