## Why should you consider the Builders Exchange Insurance Program?

It is an avenue for the small contractor to have guaranteed medical insurance or a large contractor to reduce their cost of health insurance.

All insurance carriers are now considered through the Builders Exchange Insurance Program! This is a HUGE CHANGE from what was offered in the past.

Another new addition, the Health Savings Accounts, can provide financial support to your company.

Participation in the CCBE Group Program provides a group discount and helps support the Builders Exchange which allows us to keep our dues low.

If you are not able to make the open house you can always contact Steve and Rob at (559) 251-0501.

*Guaranteed Issue - Great Rates -  
Ability to Mix and Match Carriers*
