Injury and Illness Prevention Program (IIPP)

REMEMBER: An IIPP is required of all CA Employers!

Do you have a written Injury & Illness Prevention Program?

Does it have the 8 ELEMENTS to make it compliant?

The Injury and Illness Prevention Program (IIPP) is a basic written workplace safety program. Title 8 of the California Code of Regulations (T8CCR) section 3203, requires **every** employer to develop and implement an effective IIPP. An effective IIPP improves the safety and health in your workplace and reduces costs by good management and employee involvement.

The 8 required Injury and Illness Prevention Program elements are:

- ◆ Responsibility
- ◆ Compliance
- ◆ Communication
- ◆ Hazard Assessment
- ◆ Accident/Exposure Investigation
- ◆ Hazard Correction
- ◆ Training and Instruction
- ◆ Recordkeeping

To be effective your IIPP must:

- ◆ Fully involve all employees, supervisors, and management
- ◆ Identify the specific workplace hazards employees are exposed to
- ◆ Correct identified hazards in an appropriate and timely manner
- ◆ Provide effective training

Remember, how well you actually put into practice your IIPP in your workplace is what will determine how effective it is. You must regularly review and update your IIPP in order for it to remain effective.

Attendees will learn how to develop and write an injury and illness prevention program for their organization.

Presented by: Boretti, Inc.

Instructor: Eric Andersen:

Eric has a diverse background in the field of environmental, health and safety. Eric has been responsible for the development, implementation, and management of safety programs, policies, and procedures to ensure the company complies with all federal, state and local safety laws. This required Eric to become familiar with all aspects company's concepts, practices, and procedures to achieve their safety goals. Eric is a certified IVES Master trainer, allowing him to provide safety certification training for most pieces of equipment, and an Authorized OSHA Instructor for Construction.
