This Month's Topics: Future of Rail, Stimulus Funds to Help Save You Money, and Local Construction Initiatives

The Economic Development Corporation serving Fresno County, in partnership with the Burlington Northern Santa Fe Railway (BNSF) and the County of Fresno, would like to share relevant information to help strengthen and grow the Construction Industry. Join us as we discuss:

[BNSF - Future of Rail in the Valley](#)

BNSF will present on the future of rail in the valley with a discussion on relevant services and products for the Construction Industry.

[2010 Construction Community Initiatives](#)

The Construction Cluster will share an update on past accomplishments and new initiatives. We hope to engage businesses in building a strong local economy.

[80/20 Stimulus Program](#)

Fresno County businesses that meet certain criteria will be reimbursed 100% of wages paid to qualified hires filling full-time positions if they can 'match' 25% of wages paid to qualified hires through training and supervision expenses. Learn how to take advantage of these stimulus dollars, and learn more about a new layoff aversion program.

Sponsored by

San Joaquin Valley Chapter
