Trenching & Excavation Seminar

Learn safe trenching and excavation techniques!!

Building a Safer Industry One Member at a time

TOPICS TO BE COVERED:

- Soil Mechanics
- Identification of soil types and classification
- Various types of cave-in protection systems and when they apply
- Planning for a safe excavation

OSHA FACT:

The fatality rate for excavation work is 112% higher than the rate for general construction.

Don't get left out! While other resources are going to ineffective, cheap, non-interactive training online, the Central California Builders Exchange offers our members a **cost effective, interactive** safety credentialing program that works for your business, builds empowerment and gets results.

Presented by: Boretti, Inc.

Instructor: Eric Andersen:

Eric has a diverse background in the field of environmental, health and safety. Eric has been responsible for the development, implementation, and management of safety programs, policies, and procedures to ensure the company complies with all federal, state and local safety laws. This required Eric to become familiar with all aspects company's concepts, practices, and procedures to achieve their safety goals. Eric is a certified IVES Master trainer, allowing him to provide safety certification training for most pieces of equipment, and an Authorized OSHA Instructor for Construction.
